Health

To support the surmounting needs within the health sector, IOM continues expanding access for the affected populations to healthcare services and provides medical and technical support to healthcare centres and hospitals. **IOM provided healthcare assistance to 13,003 IDPs and other conflict affected Yemenis and 890 migrants during the reporting week.** Healthcare services – provided through 61 IOM-supported healthcare facilities across Yemen – includes primary healthcare, MHPSS, and health promotion orientation through Migrant Response Points (MRPs), static and mobile health clinics, mobile health teams, and foster care. **This week, IOM started supporting Ber Ali health unit in Rudum district in Shabwa and Abdulqai health center in Ash Shaikh Outhman district in Aden Governorates.** Support provisions in the new facilities include incentives for healthcare workers and provision of medicines and medical supplies.

One cholera case was confirmed using a rapid test, among 141 suspected cholera/AWD cases that were treated in Ibb through DTCs and ORPs as part of cholera response.

IOM participated in a national vaccination campaign in an Immigration, Passport, and Naturalization Authority (IPNA)-run and IOM-supported clinic in Sana'a during the reporting week. **A total of 80 individuals were vaccinated,** including 9 girls, 12 boys, and 59 women. In addition, an anti-Scabies campaign was carried out at the IPNA clinic, including washing dormitories, replacing mattresses, blankets, and clothes, and distributing medicines among 110 beneficiaries.

Focused psychosocial support services (PSS) was provided to 240 children and their parents—including 64 girls, 157 boys, 17 women, and 2 men—through individual and group sessions conducted in Child Friendly Spaces (CFSs).

As part of supporting national programmes in the implementation of HIV/AIDS, TB, and Malaria activities in Yemen, IOM supported the National Malaria Control Programme (NMCP) in implementing on-site training visits to targeted hospitals in the high-risk epidemic districts. A total of 120 medical doctors and health workers from six hospitals in Amran Governorate attended the training. Additionally, the National TB Programme (NTP) was supported in organizing Governorate-level TB programme review meetings in Al-Jawf Governorate, attended by 15 participants, including 2 women. IOM also supported NTP to implement mid-supervision visits to 85 districts in Aden, Lahj, Abyan, Hadramaut, Shabwah, Al-Maharah, Al-Dhale'e, and Socotra Governorates.

Water, Sanitation, and Hygiene

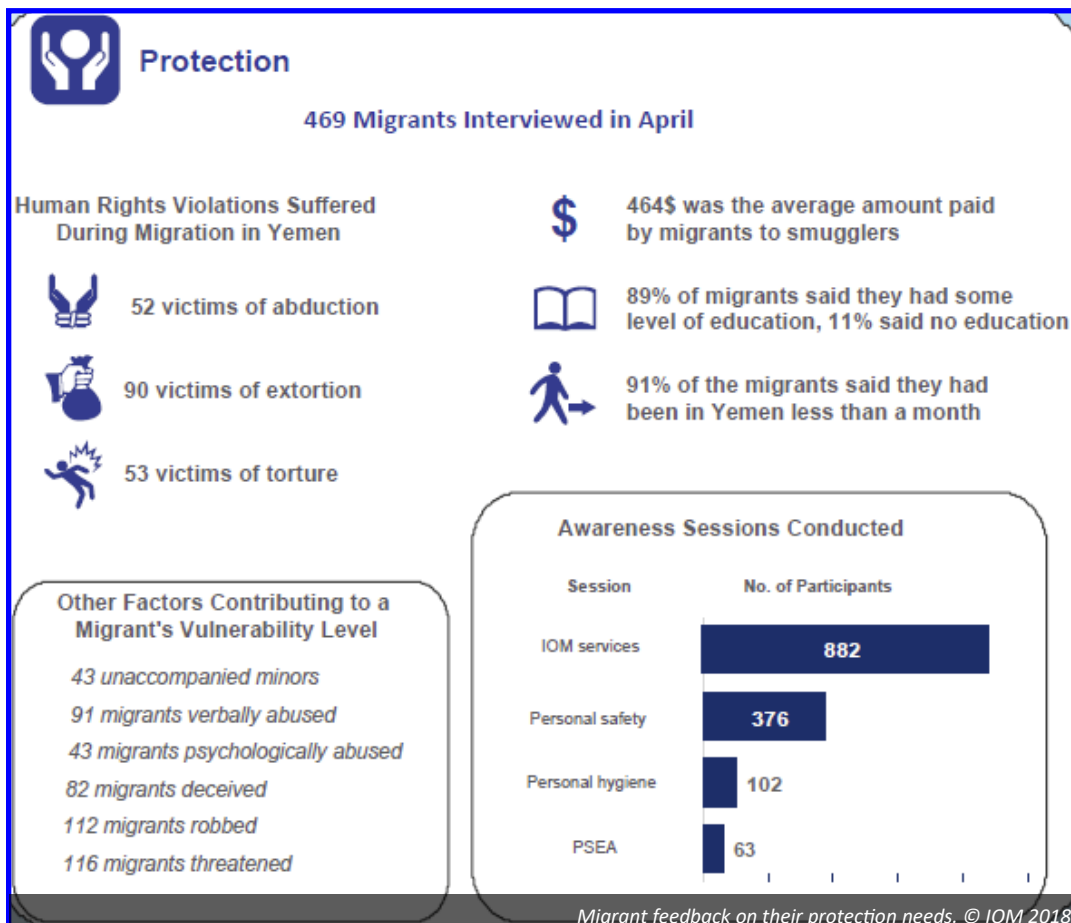

IOM provides emergency WASH assistance to the most vulnerable, and restores and maintains water and sanitation systems towards the improvement of public health. This is achieved by provision of rehabilitation and maintenance of water supply systems, capacity building of WASH stakeholders, water trucking to IDPs, and hygiene promotion activities. During the reporting week, installations of electric submersible and horizontal pump units were completed in An-Nadirah city in Ibb, expected to **benefit over 14,000 individuals**. 344,000 liters of water was trucked to different water points, hospitals, and other locations in Lahj, Al-Dhale'e, Abyen, Taizz and Shabwah Governorates, **benefitting over 22,000 individuals**.

Protection

A total of **1,918 conflict-affected children (754 girls and 1,164 boys)** benefitted from a range of activities—including acting, art, sports, and orientation on recycling and personal hygiene—provided in 24 Child-Friendly Spaces (CFSs) in Sana'a and Aden. In addition, 9 girls and 13 boys were referred to focused PSS.

Migrants Multi-sector Assistance

Migrants transiting Yemen are extremely vulnerable during every phase of the journey. IOM is providing life-saving, multi-sectoral assistance to stranded migrants in Yemen, including providing an orderly, humane option to those who are willing to return to their country of origin.

A total of **1,816 migrants** were provided direct assistance during the reporting week, including:

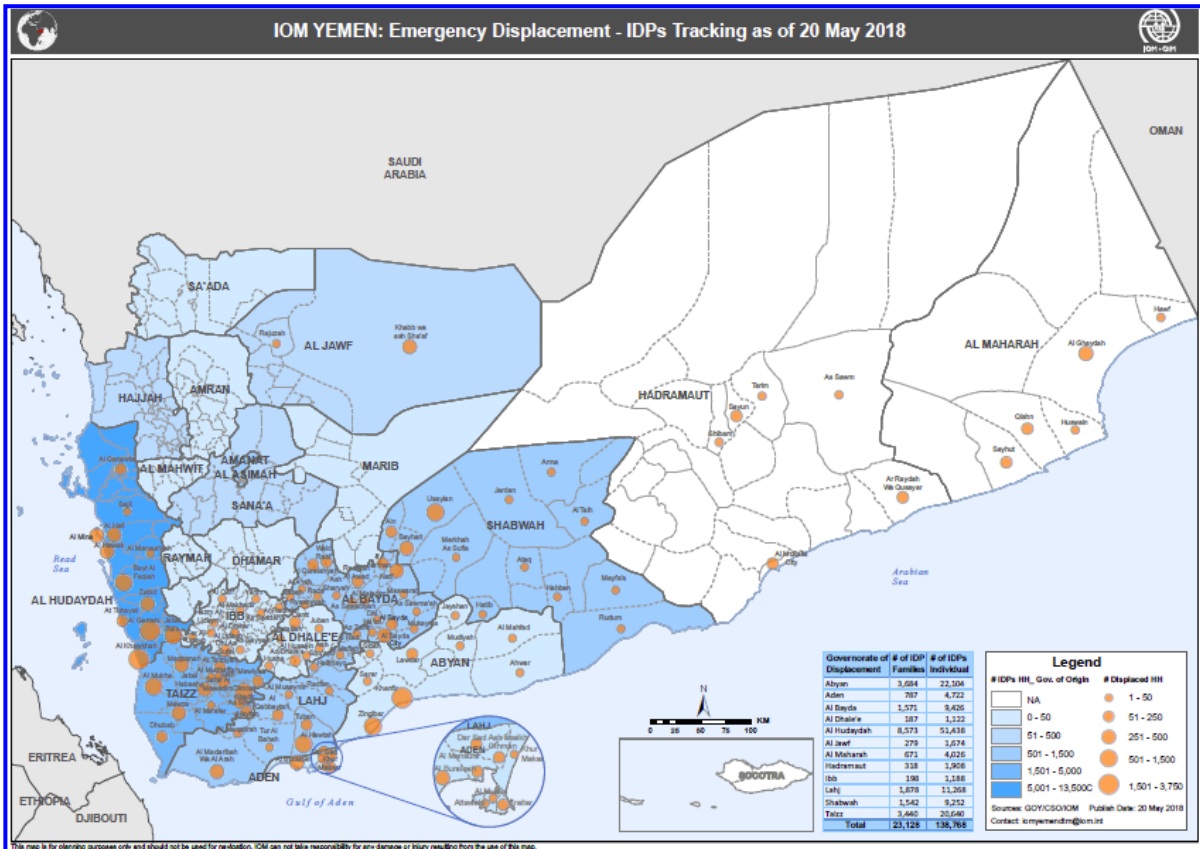

- ✓ 174 migrants (125 girls, 1 boy, and 48 women) were registered and screened.
- ✓ 595 migrants (465 girls, 66 boys, 45 women, and 19 men) were provided snacks and hot meals.
- ✓ 294 migrants (213 girl, 1 boy, and 80 women) were provided NFIs and hygiene kits.
- ✓ 15 migrants (12 girls, 1 boy, 1 woman, and 1 man) were provided temporary accommodation.
- ✓ 501 migrants (387 girls, 61 boys, and 53 women) were provided awareness raising orientation.
- ✓ IOM's coastal search and rescue teams for migrants found 237 new arrivals (48 boys and 189 men) and provided them information, food, water, NFIs, and medical assistance, as necessary.

Movements and Needs Assessments

IOM is the co-lead of the Task Force on Population Movements (TFPM) and is responsible for assessing movements of various demographic groups across Yemen. IOM continues Area Assessment in nine Governorates and Migrants Flow Monitoring across Yemen. Since November 2017, IOM identified over 23,000 IDP households through Emergency Tracking.

Challenges

- Developing weather conditions threatened Yemen with tropical cyclones making landfall in its coastal areas. IOM activated its contingency planning in preparation.
