Hudaydah Crisis

Situation

The situation in Hudaydah remains unchanged as armed clashes continue in the Kilo 16 and Kilo 10 areas and close to the airport. Infighting occurred in At-Tuhayat and Hays districts, as well as airstrikes in Ad-Durayhimi, Al-Hawak and Al-Qanawis districts where civilian casualties were reported. Activities within the city continue to operate quite normally, including open businesses, banks and water pumping stations. The conflict has not significantly altered movement in and within the city. The easiest access to the Al-Hudaydah is through the north as the Al-Hudaydah-Sana'a road is blocked due to the fighting. Al-Hudaydah Port is operational. To date, approximately 78,400 households have been displaced in Al-Hudaydah since June. Families who escaped the conflict to Sana'a have found temporary shelter in public schools.
