AL HUDAYDAH HUB

A UN-led truce monitoring team begins work in Al Hudaydah few days ago to start monitoring ceasefire and withdrawal of armed forces after the approval of United Nations Security Council for the deployment of the team. This came as a result of the agreement reached from the UN-led peace talks in Sweden. These efforts will hopefully keep the lifeline open for humanitarian and commercial in Al Hudaydah critical ports and prevent further deterioration of the humanitarian crisis. Although it was reported that the entry to Al Hudaydah City still restricted. AGFD (All Girls Foundation for Development) completed needs assessment in Al Munirah and Az Zaydiyah districts and found 200 families in need for NFIs (Non-Food Items) and EESKs (Enhanced Emergency Shelter Kits). NFIs distribution completed by NRC for 700 families in Al Qanawis district.

ADEN HUB
