

Sea cargo transport from Djibouti to Aden
January – June 2019

- The Logistics Cluster can facilitate the transport of humanitarian cargo via sea on board the WFP-chartered VOS Apollo every Sunday. Service implementation depends on funding and on organisations' needs. The vessel has a capacity of 500 mt, and two containers are available for cold chain and temperature-controlled transport.
- Detailed Standard Operating Procedures (SOPs) on how to access the service are available at: <http://www.logcluster.org/document/standard-operating-procedures-sops-djibouti-sea-transportmarch-2018>.
- Please submit all documents to yemen.clustercargo@wfp.org. Dates are subject to modification; any change will be communicated further by the Logistics Cluster via the mailing list.
